Report of Evaluation of Attainment of Programme Outcomes and Course Outcomes

Although there is a mechanism of internal and external examination (Conducted by Vidyasagar University) as a process of continuous assessment from which the attainment of programme outcomes and course outcomes can be evaluated, the college has also established a new method to do the same in a more scientific way.

Process of evaluation

To evaluate the attainment,

- We have randomly selected students from Philosophy departments.

- Teachers have then selected random programme and course outcome topics. Students of the Department are supposed to achieve those outcomes.
- Teachers have evaluated the level of understanding of the students on the basis of the randomly selected topics.
- Evaluation process has been conducted on the basis of four grades – Grade A: Excellent, Grade B: Good, Grade C: Satisfactory and D: Poor.

Grades	Number of Students	Percentages
A. Excellent	17	49
B: Good	11	31
C: Satisfactory	07	20
D: Poor	00	00
Total	35	100

Report of the Evaluation

We evaluated total Thirty Five students randomly selected from Philosophy department. Teachers gave them grades from A, B, C and D on the basis of their level of attainment of programme and course outcomes. It has been found that more than Forty-Nine percent of the students have scored excellent, another Thirty-One percent students have been evaluated as good and another Twenty percent students have been evaluated as satisfactory. No student was found in the “poor” category.
