SEC2T: Public Opinion and Survey Research

Course Content:

I. Introduction to the course

Definition and characteristics of public opinion, conceptions and characteristics, debates about its role in a democratic political system, uses for opinion poll.

II. Measuring Public Opinion with Surveys: Representation and sampling

- a. What is sampling? Why do we need to sample? Sample design.
- b. Sampling error and non-response
- c. Types of sampling: Non random sampling (quota, purposive and snowball Sampling); random sampling: simple and stratified

III. Survey Research

- a. Interviewing: Interview techniques pitfalls, different types of and forms of Interview
- b. Questionnaire: Question wording; fairness and clarity.

IV. Quantitative Data Analysis

- a. Introduction to quantitative data analysis
- b. Basic concepts: co relational research, causation and prediction, descriptive and Inferential Statistics

V. Interpreting polls

Prediction in polling research: possibilities and pitfalls
Politics of interpreting polling

Student Exercises:

1. Discussion of readings and Indian examples.
2. Groups of students to collect examples of and discuss various sample based studies across many fields: e.g. consumer behaviour, unemployment rates, educational standards, elections, medicinal trials etc.
3. Non-random sampling: The students have to identify one group of people or behavior that is unique or rare and for which snowball sampling might be needed. They have to identify how they might make the initial contact with this group to start snowball rolling.
4. Give the students the electoral list of an area in Delhi (<http://ceodelhi.gov.in>). The students have to draw a random sample of n number of respondents.
5. For this activity, working with a partner will be helpful. The class should first decide on a topic of interest. Then each pair should construct a five-item self report questionnaire. Of the five items, there should be at least one nominal response, one ordinal response and one interval. After the common questionnaire is constructed putting together the questions from everyone, working in pairs, the questionnaire should be administered on 10 different individuals.
6. Give the students a questionnaire from any public opinion survey and ask them to identify the type of variables.
